VP151 Monitor

ViewPanel® Series

(PC Sold Separately)

15" Active Matrix LCD Color Display

The innovative and unique ViewSonic VP151 is the first 15" multi-functional, flat panel display to incorporate digital, analog and composite video inputs using Optisync technology into a single unit. The composite video input accepts a wide variety of applications including DVD, VCR and video cameras with both RCA and S-video connections, and supports worldwide video standards; it also offers picture-in-picture capabilities.

Boasting a maximum resolution of 1280 x 1024, the VP151 also features two 2-watt speakers built into the base to deliver stereo sound for on-demand multimedia applications. We've included Auto Tune, selectable text and image smoothing filters, ViewMatch® color controls, Gamma adjustments for custom color response, *Plug & Play+* and advanced ergonomics. Impressive and uniquely ViewSonic, the VP151 is leading the digital revolution into the new millennium.

- **Full 15" viewable**
  The VP151 displays a full 15.0" flat viewable area with vivid, rich colors.
- **1,280 x 1,024 maximum resolution**
  Displays a crisp, clear native resolution of 1,024 x 768, comparable to most 17" (various viewable) monitors. Capable of scaling from 640 x 480 up to 1,280 x 1,024.
- **Optisync™ Technology**
  Optisync is a revolutionary new multiple input "sync" technology that features precise display synchronization in any analog or digital computer signal including the addition of composite video. ViewSonic Optisync technology provides exceptional picture quality for today and for tomorrow's most advanced digital and video requirements.
- **Super wide viewing angles**
  160° horizontally and vertically.
- **Picture in Picture**
  The VP151 allows composite video input from your DVD or VCR to run live while working real time on other PC applications with a resizable and relocatable feature.
- **Dual USB[1] hubs**
  The first display to provide USB inputs on both the base and LCD panel for unprecedented configuration flexibility[†]. Whether it's on the desktop or wall mounted, the VP151 offers the user the option of convenient inputs for additional USB peripherals, such as a camera, mouse or scanner.
